Galerie Ashiya Schule is please to present a solo exhibition *painting / luminance*, by Shiro Ishibashi from November 9 through December 14.

This is the first solo exhibition at Galerie Ashiya Schule by Shiro Ishibashi.

Shiro Ishibashi has sought his own concept and way in order to find brightness of light glow in the space through the particles of the colors of Japanese painting.

The images of the sky and the cloud, the fresh atmosphere, the tremor of wind are just like the mirror image of our real world.

In this exhibition we introduce the works in search for the new possibilities of colors, under the themes of "the luminance" in the Japanese paintings.

We will find the new expression in the Japanese paintings through Ishibashi's works. We are looking forward to your visit.
