

Mima AKASAKI

The Scenery of Light in the Czech

Galerie Ashiya Schule exhibits works of Mima AKASAKI from May 8 to May 20, 2012.

Mima AKASAKI seeks light in her works, not just uses it as her subject. She says that she finds life and hope in light.

She has created works that make a light of a actual moment into a mysterious and fantastic world.

This time she adds light like a drawing to the pictures she took in Czech by using computer techniques. Just as the intention of the artist to express a mysterious world like one page of a picture book, the works have an air of nostalgia and a certain charm.

30 works will be exhibited including “Angel Series” she created at a historic church in Czech.
