

"The flash of afterglow" Shuko TERADA

"microcosmos" Masatake MATSUBARA

"The outline of the moon" Hitosugi WATANABE

The Golden Record

Shuko TERADA

Masatake MATSUBARA

Hitosugi WATANABE

Galerie Ashiya Schule is pleased to present *The Golden Record*, an exhibition of works by Shuko TERADA, Masatake MATSUBARA, Hitosugi WATANABE, on view from September 6 through 28, 2014.

More and more people are becoming interested in space art, the field in which we create new outlook on the world and a new sense of beauty from the concept of time and space in galaxy.

In TERADA's works, real images and virtual images mix together and present a unique cosmology.

A full-size work of the moon by WATANABE visualizes the background of experience by the simplest factors.

MATSUBARA upsets the ordinary vision through the pictures and installations of nature images.

The world of space art by three artists unfolds before us.

The Golden Record

Last year we knew that the space probe, Voyager 1 had got out of the solar system, the first artificial product to accomplish the feat.

In 1990, on the way to the ends of the solar system, Voyager 1 took the pictures of the distant sun and planets.

In the picture called "Family Portrait", "the frail blue dot was our earth".

Voyager 1 contains "Golden Record", in which greetings of 55 different languages and the location of the earth.

They are the messages to ET, extraterrestrial life.
